PERSONAL INFO

I am a passionate React.js Developer with expertise in building modern, responsive, and scalable web applications. I specialize in TypeScript, React.js, Material UI, and Redux Toolkit, ensuring smooth and efficient user experiences. I have experience integrating APIs,I am a problem-solver, a team player, and always eager to learn and implement the latest front-end technologies.

EDUCATION

KUM KUM VIDHYALAY   **2017-2018**

10 TH

EDUNOVA HIGHER SECONDARY SCHOOL   **2019-2020**

12 SCIENCE

SILVER OAK UNIVERSITY   **2020-2024**

B.TECH

EXPERIENCE

GTCSYS   **2025-Present**

- At GTCSYS Technology, I worked on creating responsive and user-friendly interfaces with React.js and TypeScript. I integrated APIs, Implemented authentication workflows and integrated Firebase to enhance application functionality and performance.

CODING CLOUD   **2023-2024**

- At Coding Cloud, I contributed to web development projects by building interactive UIs using React.js, TypeScript, and Material UI. I developed reusable components, integrated REST APIs, managed state using Redux Toolkit , and Context API code splitting.

PROJECTS

1.STOCKMARKETSIMULATOR

(REACT.JS,TYPESCRIPT,REDUXTOOLKIT,FIRE-BASE,MATERIAL UI)

- Developed a stock trading simulator where users can buy and sell stocks with virtual coins.
- Integrated real-time stock price data using the Alpha Vantage API.
- Implemented role-based authentication (Admin & User) with Firebase.
- Designed an intuitive UI using Material UI and ensured smooth user interactions.

2. PORTFOLIO WEBSITE

(REACT.JS,TYPESCRIPT,MATERIALUI,GIT-HOSTING)

- Built a fully responsive and visually appealing portfolio to showcase projects and skills.
- Integrated EmailJS contact form for real-time data handling.
- Used Material UI for modern styling and smooth UI/UX experience.
- Deployed on Firebase Hosting for fast and secure access

3. POKÉMON GAME

(REACT.JS,TYPESCRIPT,API,INTEGRATION,MUI)

- Developed an interactive Pokémon battle game using React.js and TypeScript.
- Integrated Pokémon API to fetch real-time Pokémon data, including stats and abilities.
- Designed an engaging and responsive UI using Material UI.
- Implemented game logic for turn-based battles, allowing players to select Pokémon and attack.
